THE DAILY EPITAPH IS
the only Daily Newspaper
published in Cochise county
that takes a regular
telegraphic press report
and does not use "boiler
plate."

With this issue the DAILY EPITAPH ceases, and hereafter it will be published as a weekly. There will not be any change in the management or policy of the paper. When the present publishers leased the plant they thought a daily morning paper in Tombstone could be made to pay, but after a nine months' trial they are reluctantly compelled to admit that it will not. This is the only reason for the change to a weekly. The publishers have a two years' lease, and if the rise in silver should cause a revival in business they will again issue a daily.

HON. TOM REED, of Maine, the sworn foe of silver, has received the Republican caucus nomination for Speaker of the House. Anyone who has been deluding himself with the idea that the advocates of free coinage, or even those who favor the purchase of \$4,000,000 a month, would have an easy time in carrying either measure, may now change their opinion. The Speaker has great power in the appointment of committees and other ways, and the advocates of silver will have to muster all their strength and neglect no means to attain their end. While no one questions Mr. Reed's ability and fitness for the high honor, yet the West would much rather have seen Mr. McKinley, an equally able man, selected. The latter gentleman knows and is in sympathy with the needs of the West and South, and with him in the chair the attainment of our wish would have been much simplified. The hand of the single standard and extreme protectionists is to be seen in Mr. Reed's nomination.

In view of the active canvass now being prosecuted by the friends of Mr. Reed and Mr. McKinley for the Speakership of the next Congress, the following from the Financial and Mining Record will be of interest to our readers, and presents some cogent reasons why Mr. Reed's success would be detrimental to the interests of the West: "The Sun newspaper of this city, deigning, with possible irony, to admit that there may be Western candidates for the Speakership of the next House of Representatives, the equal of Mr. Reed in brains, energy and personal beauty, adds 'but Tom Reed, of Maine, is likely to get the chair, all the same,' for the reason, 'in the first place, he starts with more votes. In the second place, he has been the caucus nominee for speaker in minority years, and custom and decency entitle him to the nomination now that it means something.' Exactly so, the nomination by a caucus of his party to the Speakership this year would mean his election, and that would carry a meaning portentously antagonistic to great Western interests. It would mean an arrangement of the Committee on

Banking, Ways and Means, Internal Improvements, and last but not least, of the Committee on Coinage and on Mining, adverse to the views, wishes and interests of the West and South, including the Pacific Coast States. With Mr. Thomas B. Reed in the Speaker's chair, there would be no hope of the enactment during the next Congress, of any beneficial laws in regard to our mining interests. No member of the House from the West or South has the right to remain blind to the long Congressional record of Mr. Reed, of Maine, upon public questions that in anywise have affected the interests and industries of the Western people. We call as witnesses, also, the zealous advocacy of Mr. Reed's pretensions to the Speakership, by such papers as the New York Times, and nearly every other Eastern journal that is conspicuous for its special opposition to bimetallicism, even to the extent already in operation in the United States, and for an elaborate advocacy of a false currency system based exclusively on gold. One and all, these journals strenuously favor the election of Mr. Reed, and as strenuously oppose that of Mr. McKinley."
